London:

ISSUED TO THE SUBSCRIBERS BY PHILLIMORE & Co.,
124, CHANCERY LANE.

1901.

P R E F A C E .

The Editors have now the pleasure of issuing the third volume of Somersetshire Marriage Registers, containing parishes in the Deaneries of Taunton, Ilchester, and Ilminster. Much interest has been taken in the proposal, and such willing support has been accorded, that they propose to continue the series in similar volumes. They will welcome help in the matter of Transcription of Registers.

Genealogists, not only in Somersetshire, but throughout the whole English world, will appreciate this systematic attempt to render available the information contained in Parish Registers, which to most students are at present almost sealed books. These printed copies will preserve the information they contain, even though the originals be lost by carelessness, theft, or fire.

Moreover, registers in the past have been sometimes tampered with for wrongful purposes, a risk which printed copies will in the future obviate. **1379233**

The Editors have to acknowledge the kind help of the Incumbents of the several parishes, who have readily permitted the transcription and publication of the marriage register books in their custody. Their names are mentioned under the respective parishes. The Editors have to specially acknowledge the assistance given in transcribing by Mrs. E. B. Cely Trevilian and Miss Warren.

Every care has been exercised in the transcription of the copy, and in many cases the proofs have been collated with the original registers. Still errors may have crept in, from the difficulty of distinguishing certain letters, such as c and t, u, m, n and i, K and R, O and C, etc. It must also be borne in mind that the existing early registers are themselves but a transcript made under the order of Elizabeth, in 1597, from the original paper registers.

The following general facts in the history of Parish Registers may be usefully noted:—

Thomas Cromwell, the Vicar-General, issued the order for keeping parish registers on 29 Sept. 1538.

Cardinal Pole required the names of sponsors to be added to the register of baptisms, 1555.

The registers were directed to be transcribed anew on parchment, and minute regulations laid down for their preservation, 25 Oct. 1597.

These regulations were embodied in the 70th Canon in 1603.

The Commonwealth directed "parish registers" to be appointed 22 Sept. 1653.

Civil marriage was instituted 29 Sept. 1654.

These civil marriages were legalized by Act of 12 Car. II, c. 33, in 1660.

Duties on the registration of baptisms, marriages, and burials imposed for five years, 6 & 7 Will. III, 1694-1698.

Lord Hardwicke's Marriage Act took effect 25 March 1754.

Duty of 3*d.* on every entry in a register imposed by 23 George II, c. 71, 1783.

And repealed 34 Geo. III, c. 2, 1794.

Rose's Act, 52 George III, c. 146, took effect 1813.

Civil Registration commenced 1 July, 1837.

The entries have been reduced to a common form, and the following abbreviations adopted :—

w.=widower *or* widow.
s.=spinster, single woman,
 or son of.
b.=bachelor *or* single
 man.

d.=daughter of.
p.=of the parish of.
dioc.=in the diocese of.
co.=in the county of.
lic.=marriage licence.

It must be remembered that these printed abstracts of marriage registers are not "evidence" in the technical sense. Certified copies must still be obtained when evidence of a marriage is needed for proving a pedigree in a Court of law, or when registering it at Heralds' College. For such certificates application must be made to the clergy in charge of the original registers.

Ultimately, no doubt, the baptisms and burials will find their way into print, but it seems expedient to issue the weddings first, as the Editors are doing in the present series.

No index is issued with the volume, as the Editors believe that it is better to print as many registers as possible, and to defer index-making until the registers still in manuscript are placed beyond the risk of loss.

Somerset Parish Registers.

Marriages at West Hatch,

1604 to 1812.

NOTE.—The marriages here are contained in three books, 1604 to 1812.

Volume I, is a small parchment book, 12 in. by 5. in., made up of numerous fasciculi stitched together, very dilapidated, many parts very badly written and much of it illegible.

It begins 1606 with Baptisms. The first Marriage is 1604, and they are for a few pages continuous.

Volume II is a larger book, 13 in. by 7 in., thin and parchment leaves—most of it very badly kept. It contains only eight weddings.

Volume III is a book bound in calf 15 in. by 14 in. Ruled in forms with space for Banns above that of the Marriage Register. It is well preserved and contains entries from 1754 to 1812.

These Marriages have been extracted by Mr. Hugh P. Olivey, M.R.C.S., and are now printed under his supervision, by leave of the Rev. A. D. Reece, Vicar of West Hatch.

Marriages at Long Load,

1749 to 1808.

NOTE.—Long Load Chapelry, in the Parish of Martock, was served from Martock until recent years. Previous to 1749 the Marriages of Long Load people were perhaps entered in Martock Registers. The oldest Register Book of the Chapelry being in a very decayed state and many portions of it lost, an exact copy was made by the Rev. E. Arthur Salmon, Vicar of Martock, in the year 1864, and carefully attested by the Vicar and Curate of Martock, and by the Clerk and Churchwardens of Long Load. Since that date a further portion of the Chapelry Registers, 1784-7, was found at Martock and sent to Long Load. The following copy is made in chronological order of the various records now in the iron chest of Long Load, and by the consent of the Vicar, Rev. J. Rowe.

Marriages at Martock,

1559-1812.

NOTE.—The oldest Register is a parchment transcript written in a beautiful hand, apparently made in October 1598—the same writer, H. Newton, having taken the years 1558 to 1598. The Baptisms come first, then the Burials, then the Marriages. Each has a similar neat heading with that of the last named—"Here followethe the Register of all them that have ben married at Martock from the 18th day of Aprill, An. Dm., 1558." The pages in each case down to Oct. 1598, are witnessed by James Elford, Clericus, John Gould and William Ryse, Wardeus, and H. Newton, Scriptor. We may notice how the number of marriages diminished in the Civil war when Cromwell was about Martock. The second parchment Register, which begins 1653, is bound up in what looks like leaves of a Pre-Reformation illuminated Prayer Book. The records of this book show the civil marriages of the Commonwealth, and a special entry of Jan. 20, 1662, seems to mark the joy with which people beheld once more a marriage according to the Prayer Book in the time of Divine Service. The third parchment Register begins with the year 1663 for the Baptisms and Burials, but curiously the Marriages which come between these, and are in the middle of the book, only begin at the year 1666, so that we have nothing recorded for the year 1665. However, we find later only one or two marriages in the space of a year. It will be noticed from 1680 to 1754 that sometimes both parties are mentioned as coming from another parish. Historical notes will be found at 1752 and 1783. The fourth Register is half of parchment and half of paper, apparently bound up later in one volume. They are entries in full according to a printed form.

These registers have been transcribed by the Rev. D. M. Ross, by leave of the Rev. A. R. Wickham, R.D., and are now printed under his supervision.

* "These two Marriages were entered before the new Register was received, which by an Act of Parliament was to take place the 1st January 1813. They are therefore transferred into the new Register.—J.B."

Marriages at Drayton,

1577 to 1812.

NOTE.—These Registers are in a good state of preservation, and are very interesting. The oldest paper and parchment Registers have been carefully bound up by the direction of the present Churchwarden, E. B. Cely Trevilian, Esq. Some portion of the original Register, written on paper, remains from 20 May 1576 to 5 May 1595, both inclusive (distinguished below as A), and Burials, Baptisms and Marriages follow in the order in which they occurred. But several entries contained in this copy were not transferred to the parchment Copy (distinguished below as B), and the incorrectness of other entries will be noticed in B, in spite of the fact that the Curate and Churchwardens witnessed their names from 1558 to 1598 at the end of each page of the copy B. Several irregularities in the dates occur in the Registers.

Register B includes the years 1558 to 1681. It reflects the troubles of the civil war, for after the year 1647 appears "This Register is much faulty in this place. Witness, John Gard, Curate." Shortly after John Humphrey was appointed "Register" for three years certain, from September 29, 1652, by J. Barker, according to the Act made in 1653, and his Register (marked here C) is bound up with Register B at the year 1681, being written on larger leaves. It has entries from 1654 to 1658. Register B is then continued at the Register marked D. The following books are marked E and F. About 1700 begins a curious custom of being married at other churches. In Register F the profession is often given.

These registers have been transcribed by the consent of the Rev. H. G. Quick, Vicar, and with invaluable assistance from Mrs. Cely Trevilian.

This marriage is signed by James Sedgwick, Curate, and then follows this note: "January 1st, 1813. This book (note) becomes a Register of Banns only."

Marriages at Curry Rivel,

1642 to 1812.

NOTE.—The oldest Register is a volume of parchments, covering the years 1642 to 1720. It is an ill-assorted and ill-kept medley of records, very carelessly collected into one volume. In the beginning is a printed copy of the Act of Parliament passed in 1653 concerning "Marriages and the Registering thereof; and also touching Births and Burials". The volume begins with the Commonwealth Marriages, 1653 to 1657, neatly entered. On the last page of these begins the Register of Baptisms in 1664, which are interrupted in 1665 by five odd leaves of various Registers there sewn in. The first of these leaves is headed "1650. Wee, John Sawtle, of Wiltowne, and Marmaduke Combstock, being chosen churchwardens for this yeare followinge, cannot find, but that the Register for Baptisms, Burialls, and Marriages have ben neglected during the time of the warrs, from 1642 to the time 1650. Beginning ut Sequitur." Then come Baptisms and Burials, with only one year of Marriages in 1642. Some dispute seems to have occurred in 1678-9, for we read "here Marmaduke Jess did keepe off the Register from mee till the first of August 1679, but it was returned into Wells Cort". In the older part of the Register, it seems to have been the custom of the churchwardens to certify the correctness of the entries by signing their names. They signed at irregular intervals, and styled themselves Guardians, or their names were added by the Vicar (presumably) in the same neat hand which in certain years made the entries in Latin. Latin is used chiefly from 1664 to 1685.

Parchment appears to have been considered expensive by the parish, for they are careful to use up all they possess. One side of a leaf bears Burials of the year 1701, and the other side has Burials in 1664, which continue until 1680, when we return to 1704. We may conclude that these entries are often transcripts made in later years from rough forms which had never been properly entered. A group of Marriages in 1673 begins a page, the best part of which is then occupied by Burials from 1711 to 1714, but on the other side of the leaf are Burials from 1694-5. An odd entry of a Marriage in 1695 occurs at the end of a page of Baptisms, 1660-6.

The official under the Commonwealth who kept the Marriage Register from 1653 to 1657 also made regular entries of Births and Burials in those years, prefacing each with such an entry as this: "Here followeth an inserted record of the Births of such

Children as have bene born in Curryrevell from the 1st day of february 1653. Ordered by an Act of Parliament bearing force from the 29th of September 1653." But these are bound up in odd parts of the volume, apart from each other, with no attempt at chronological order.

After the Births of 1655 is entered in a spare half page: "The great wind Novemb. 26 at night 1703", *i.e.*, that which caused the death of Bishop Kidder at Wells.

The second volume is of parchment, and includes Baptisms and Burials from 1709 to 1806, and Marriages from 1709 to 1753. On the opening leaf is written: "This Book was bought in ye year 1718, when William Hillard and Francis Petwin was Churchwardens." From 1709 to 1720 a neat transcript is made of the old Register (which we call the first volume), by which the Baptisms, Marriages, and Burials are sorted out into chronological order; and at the end of 1720 we read: "Thus fur is enter'd in ye Old Register". In 1751 we have a note about the change of March 25 to Jan. 1 for the first day of the year. In 1783 another note mentions the duty of 3*d.* to be paid for the register of every Burial, Marriage, Birth, or Christening. Upon the fly-leaves at the close of Volume II is an account of the population of Curry Rivel. At the census of 1801 there were 974 persons. In the spring of the same year wheat sold for 24*s.* the Winchester bushel, barley 14*s.* and upwards, and other things in proportion. The quartern loaf sold for 1*s.* 10*d.* At the census of 1811, May 27, it was: Males 522, Females 508. On May 28, 1821, Curry Rivel, and extra parochial places adjoining: Males 600, Females 592. Inhabited Houses 218. Families 251. Families chiefly employed, in agriculture 162, in handicrafts 81, not in the preceding classes 8. On May 30, 1831: Males 679, Females 699, and in extra parochial places adjoining 66. Total 1,444. Inhabited Houses, 275. Families, 314; employed in agriculture 185, in handicrafts 108; not in the preceding, 21.

The third volume contains Marriages alone from 1754 to 1812, and is of paper, printed after the regulations of the time. The Banns occupy two lines of each entry, and are followed by the Marriage, with signatures and witnesses, and with the name of the officiating minister.

These Registers have been transcribed, with constant assistance given by Miss Warren, and are now printed by the permission of the Rev. W. Weldon Kirby, Vicar, after the proofs have been collated by Mr. Ross with the Registers.

* It should be observed that in this volume the dates are frequently out of chronological order. This is due to the record of the marriage being attached to the record of the banns, for in some cases the wedding did not take place immediately after the banns. To facilitate references to the Register, it has been thought best not to re-arrange in chronological order.
